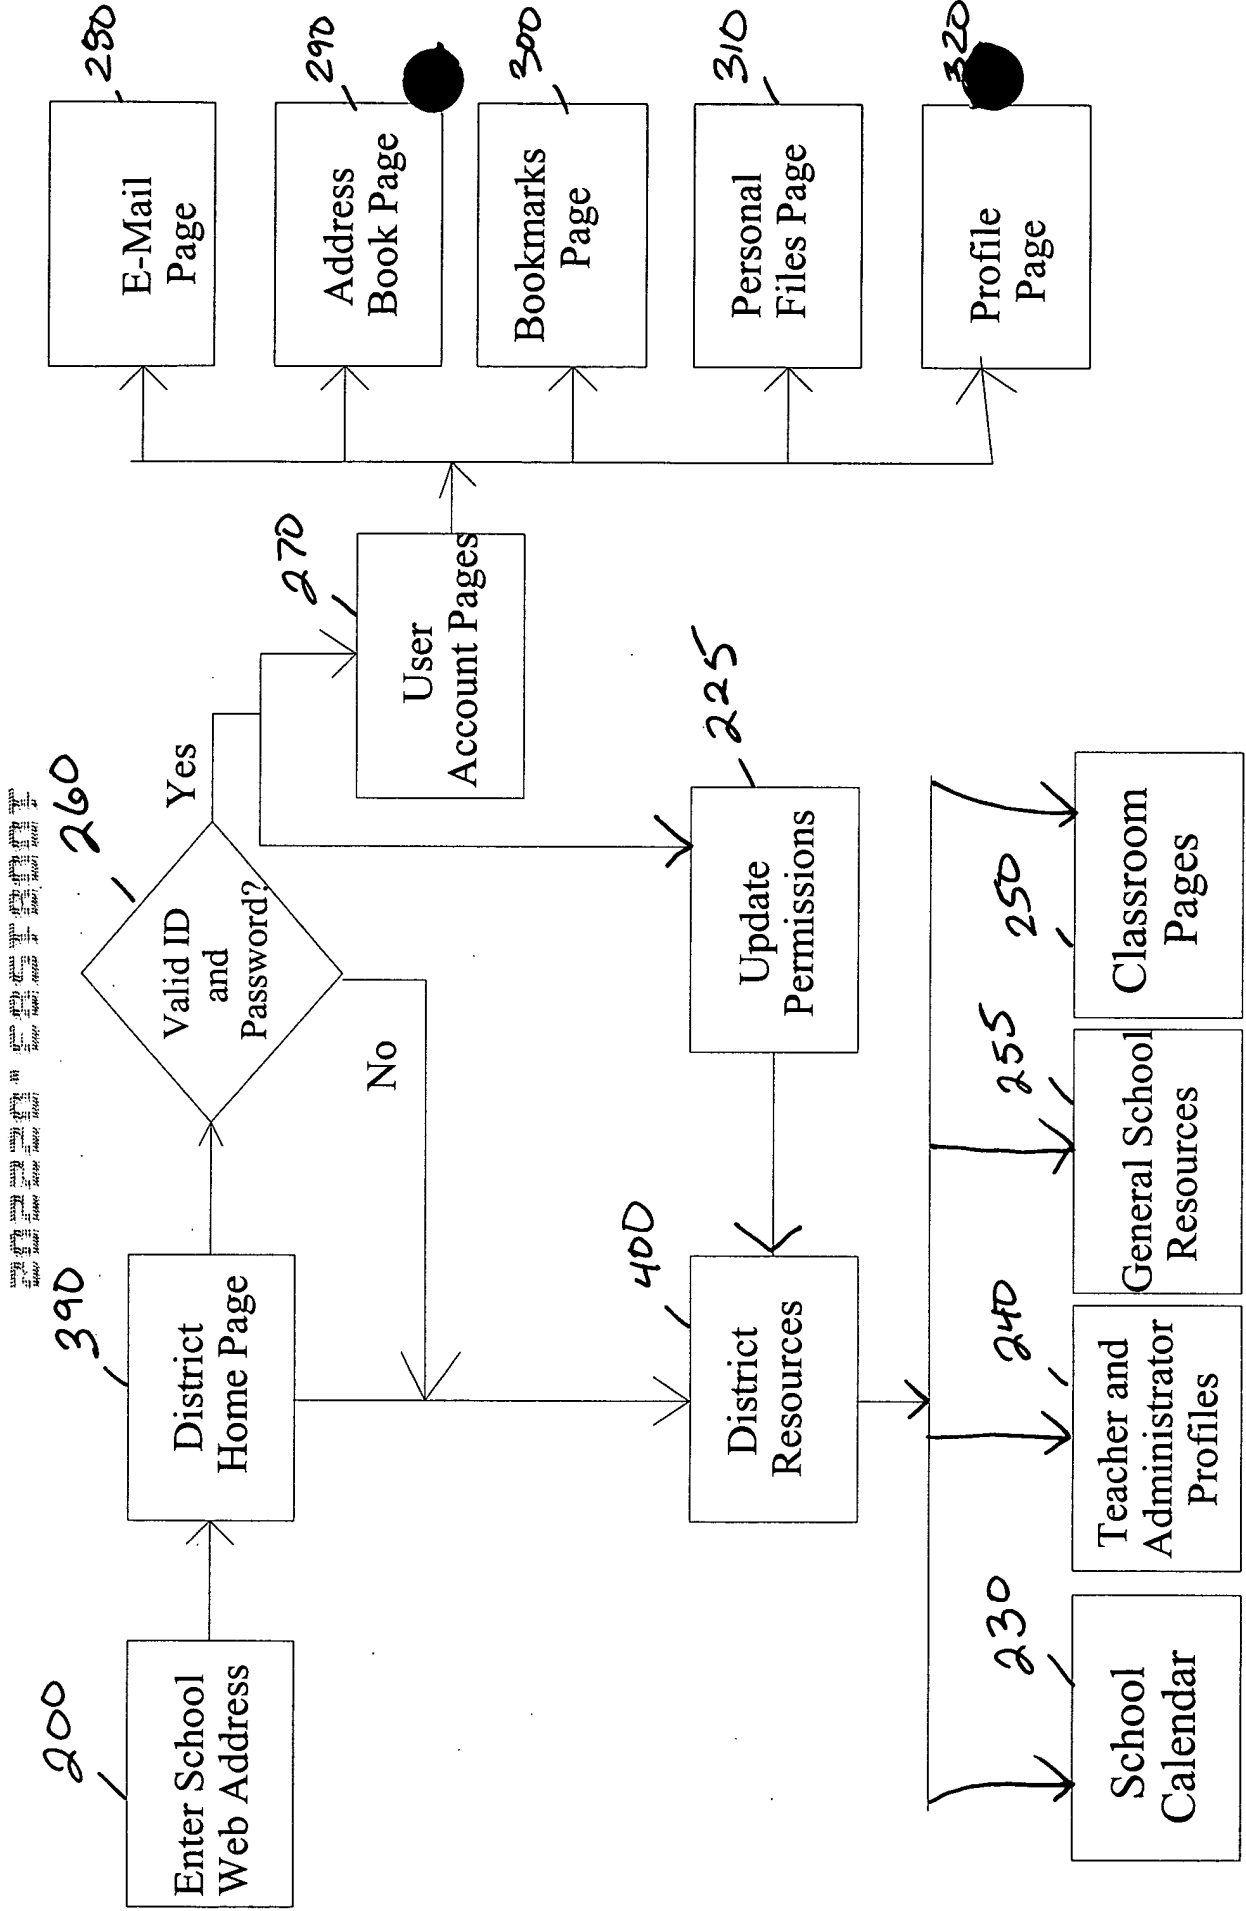

Figure 5

FIG. 6 is a block diagram of a system architecture for a community page. The system includes a user account page (270) which is connected to a find members page (550) and an eChalk community page (500). The find members page (550) is connected to a standard search (560) and an advanced search (570). The eChalk community page (500) is connected to a display eChalk community (510). The display eChalk community (510) is connected to a community calendar page (520), a community bulletin board (530), and community links (540).
